

# Seize new business opportunities at market speeds

When it comes to the program business, timing is everything. Success ultimately depends on how quickly you **are able to** launch innovative products ahead of competitors. The system you choose to build new products and issue policies can make or break your business.

Designed by insurance and technology experts, our SaaS (software as a service) solution allows MGAs, MGUs, carriers, and program administrators in the P&C industry to accelerate product launches.

## **Start and stay ahead of the competition**

Build new products quickly using current rates, rules, and forms from ISO, NCCI, and individual states. Our complete underwriting system for all personal and commercial P&C lines to get your program up and running quickly.

## **Reduce implementation times**

Rapidly rate, quote, and bind new business with minimal down time and resources needed.

## **Minimize start-up expenses**

Keep technology costs low when testing new programs in the marketplace. With no on-site implementation or maintenance fees, our scalable solution allows you to grow affordably, when you are ready.

*Move at market speeds with a light IT footprint. Don't get caught up in huge infrastructure costs and long implementation processes. Whether you are an MGA, MGU, or carrier, you can react quickly and capitalize on new opportunities with IDP's IT services and solutions.*

## **About IDP**

*IDP provides turnkey IT services and cloud-based systems, as well as comprehensive bureau reporting and information protection services for property and casualty (P&C) insurers, residual market plans, and program administrators. COMPASS is IDP's new Business Intelligence/Analytics platform providing users with greater data-management controls and visualization. Drawing on deep insurance industry expertise and rich customer insights, IDP develops agile and affordable solutions which support new business growth, streamline processing, and show product cost savings almost immediately.*
